Task # 9991 (Closed): Regional Data Collection and Validation Excel Add-In implementation

Authentication and VRE selection on excel plugin

Oct 25, 2017 10:55 AM - Dimitris Katris

Status:	Closed	Start date:	Oct 25, 2017
Priority:	Normal	Due date:	Dec 31, 2017
Assignee:	Konstantinos Apostolopoulos	% Done:	100%
Category:		Estimated time:	0.00 hour
Sprint:	WP05		
Infrastructure:	Development		
Description			
Users should login to the application by using the gCube OAuth2.0 services (https://wiki.gcube-system.org/gcube/OAuth2.0). The plugin should also offer the ability to specify the VRE in which the user will operate on.			

History

#1 - Oct 25, 2017 10:55 AM - Dimitris Katris

- Due date set to Dec 31, 2017

- % Done changed from 0 to 10

- Status changed from New to In Progress

We have created a ticket in order to register the Regional Data Collection Excel Plugin Application as a 3rd party application (#10643) of gCube. We expect a client identifier and token in order to proceed.

#3 - Feb 21, 2018 09:43 AM - Konstantinos Apostolopoulos

- % Done changed from 10 to 100

- Status changed from In Progress to Closed

The user login functionality is implemented.

Upon Excel add-in loading the user is presented with a popup of the BlueBridge authentication page. This way the user can login and specify the VRE to operate on.

After successful login the user information are stored in the excel file.
