Description

A very detailed list of Author - Lab associations to be considered have been suggested by @silvia.giannini@isti.cnr.it and communicated via email to @michele.artini@isti.cnr.it and @leonardo.candela@isti.cnr.it today

We need to enrich the authority file.

- Status changed from New to In Progress

- Priority changed from Normal to High

Dunno whether this activity was done. If yes I kindly ask @michele.artini@isti.cnr.it to close the ticket.

Moreover, since 2021 we should no longer have researchers (and papers) associated with the NeMIS lab and we should assign researchers and papers to (AIMH and InfraScience).

@leonardo.candela@isti.cnr.it @silvia.giannini@isti.cnr.it I have not received the mail with the suggested affiliations. Could you attach the file to this ticket?

That list was already processed. Regarding the affiliation for 2021 I'm not sure if I can import From PIMPA because on IOP we have changed the name of the labs. I have to perform some tests.

The affiliations for 2021 have been imported from PIMPA.

As far as I can see it is working, the AIMH lab is there and the 2021 papers are assigned to labs
