History

#1 - Jan 09, 2018 02:40 PM - Maria Di Girolamo

- Related to Release #10820: org.gcube.portlets-user.simul-fish-growth-portlet.1.6.0 added

#2 - Jan 10, 2018 11:55 AM - Maria Di Girolamo

- Start date changed from Jan 09, 2018 to Jan 22, 2018

- Due date set to Jan 26, 2018

#3 - Jan 15, 2018 10:07 PM - Denis Pyriochos

Let me point that the test steps remain the same as only a string modified (the message of the News Feed post).

#4 - Jan 18, 2018 11:58 AM - Massimiliano Assante

Denis, the portlet has been updated on preprod. If no changes are required in the service the testing can start I suppose @roberto.cirillo@isti.cnr.it ?

#5 - Jan 18, 2018 12:17 PM - Denis Pyriochos

Hey @massimiliano.assante@isti.cnr.it thanks for the swift deploy :)

The testing could start but would you let *us* test it first so we can catch probable glitches?

#6 - Jan 18, 2018 12:34 PM - Roberto Cirillo

Denis, the portlet has been updated on preprod. If no changes are required in the service the testing can start I suppose @roberto.cirillo@isti.cnr.it ?

The portlet and the service are both communityApp components.

The deadline for communityApps integration is planned for 19/01/2018 (Friday) so there is still time to release the service. I suggest to wait until the deadline.

#7 - Jan 18, 2018 01:01 PM - Denis Pyriochos

@massimiliano.assante@isti.cnr.it and @roberto.cirillo@isti.cnr.it there is no service update, just a minor portlet tweak. So we hope that this will be a "lazy" deploy for us :)

#8 - Jan 19, 2018 06:39 PM - Denis Pyriochos

The portlet is ready and testable. So the tester (@mariaantonieta.digirolamo@eng.it ?) may perform it even before 26/1, if that suits her.

#9 - Jan 22, 2018 12:55 PM - Maria Di Girolamo

- Status changed from New to Under Testing

#10 - Jan 22, 2018 12:56 PM - Maria Di Girolamo

Hli @denispyr@i2s.gr ,
the test plan is the same of the last release?

Thank you,
Maria.

#11 - Jan 22, 2018 02:16 PM - Maria Di Girolamo

- Status changed from Under Testing to Available

#12 - Jan 23, 2018 05:32 PM - Maria Di Girolamo

- % Done changed from 0 to 10
- Assignee changed from Maria Di Girolamo to Denis Pyriochos
- Status changed from Available to Test Issue
- File NotSaveUploadedFiles.png added

The model is not created because it's no possible saving the file uploaded (proper_sampling.xls and proper_weight_categories) , an error is provided as reported in the file attached.

#13 - Jan 23, 2018 09:38 PM - Denis Pyriochos

Guessing a Home Library issue. I reported it at #11026.

#14 - Jan 30, 2018 10:04 AM - Maria Di Girolamo

- Status changed from Test Issue to Under Testing

#15 - Jan 30, 2018 11:05 AM - Maria Di Girolamo

- % Done changed from 10 to 90
- Status changed from Under Testing to Test Issue

Hi @denispyr@i2s.gr , the portlet seems work fine excep for the step3.

The model is created and the messge sent in inbox.
But when another user (for example mister pink or my user) try to open the link https://pre.d4science.org/group/prevre/what-if?p_p_id=simul_WAR_simulfishgrowthportlet&p_p_lifecycle=0 , the model created is not in the list (in this case mister orange created propermodel_again_new_1000).

The link Techno Economic Investment Analysis at https://pre.d4science.org/group/prevre/techno-eco-analysis?p_p_id=TechnoEconomicAnalysisPortlet_WAR_technoeconomicanalysisportlet&p_p_lifecycle=0 is correct and the user can create the analysis.

Please, let me know if I wrong something ,
Thank you

Maria.

#16 - Jan 30, 2018 11:12 AM - Denis Pyriochos

- Status changed from *Test Issue* to *Available*

No @mariaantionietta.digirolamo@eng.it, this is the correct behavior. It takes the user to the "**What-if analysis**" list (*) because the created/updated model could be used in an analysis (create a new one, update on old one, etc).

(*) NOT in the Models list

#17 - Jan 30, 2018 11:50 AM - Maria Di Girolamo

- % Done changed from 90 to 100

- Assignee changed from *Denis Pyriochos* to *Maria Di Girolamo*

- Status changed from *Available* to *Tested on Preprod*

Thank you @denispyr@i2s.gr for your clarification.

The portlet seems work fine. The results are available at: <https://goo.gl/AHFrWk>.
