<b>Description</b>			
It should be possible for users to specify advanced queries, i.e. queries going beyond the keyword based approach.			
The syntax should be documented in a page under the Support menu and should			
<ul style="list-style-type: none"><li>• describe what are the names of the fields that can be used, how multiple criterion can be combined in AND / OR / NOT</li><li>• give sample queries</li></ul>
