Infrastructure:	Production		

Description

Since few weeks I noticed that the login button is not available anymore in the public web page (in the frame "Access to SDI Lab VRE").

- Status changed from New to Feedback

The access policy of the VRE is private (and I'm pretty sure it as always been like this). If you need to access SDI Lab you can do once logged in in BlueBRIDGE Gateway, if you need to add more users you can use the invite members option in the VRE

https://bluebridge.d4science.org/group/SDI_Lab.

If you want to change the access policy (either to restricted or public) for the VRE I guess we can do that as well
