

D4Science Infrastructure - VM Creation #13112

Task # 13068 (In Progress): PerformFISH Analytical Toolkit Service

perform-service development instance

Jan 08, 2019 06:45 PM - Fabio Sinibaldi

| | | | |
|---|---|---------------------------------------|---------------------|
| Status: | Closed | Start date: | Jan 08, 2019 |
| Priority: | Normal | Due date: | |
| Assignee: | _InfraScience Systems Engineer | % Done: | 100% |
| Sprint: | PerformFish | Applications list and version: | |
| Infrastructure: | Pre-Production | Applications context path: | perform-service |
| RAM: | 2 | External storage data disk: | |
| CPU: | 2 | Smartgears auth connector: | |
| DiskSpace: | 10 | data transfer enabled: | No |
| Smartgears: | Yes | PostgreSQL database: | No |
| Smartgears Version: | LATEST | Number of VMs: | 1 |
| Application Instructions: | | | |
| Smartgears scopes: | /gcube /gcube/preprod /gcube/preprod/preVRE | | |
| Description | | | |
| A new VM is needed in order to test the new service 'perform-service'. | | | |
| Such service needs to connect to the VRE's perform-fish-db as manager (see ticket #13111 for database details). | | | |

History

#1 - Jan 14, 2019 02:09 PM - Fabio Sinibaldi

- Smartgears scopes changed from /gcube /gcube/devsec /gcube/devsec/devVRE to /gcube /gcube/preprod /gcube/preprod/preVRE
- Infrastructure Pre-Production added

#2 - Jan 14, 2019 06:09 PM - Tommaso Piccioli

- % Done changed from 0 to 40
- Status changed from New to In Progress

new VM perform.dev.d4science.org ready to be provisioned

#3 - Jan 15, 2019 10:58 AM - Andrea Dell'Amico

@fabio.sinibaldi@isti.cnr.it do you already have the maven coordinates to the perform-service artifact?

#4 - Jan 15, 2019 11:06 AM - Fabio Sinibaldi

Yes, Maven coordinates are :

org.gcube.application
perform-service

We are going to need this service in production by the end of the month, so probably we will need to deploy the artifact from SNAPSHOT repository.
I'm creating a similar ticket for the production VM.

#5 - Jan 15, 2019 11:16 AM - Fabio Sinibaldi

- Copied to VM Creation #13149: perform-service production instance added

#6 - Jan 15, 2019 05:42 PM - Andrea Dell'Amico

- % Done changed from 40 to 90

provisioning is ongoing, but I expect an error identical to the one present in production. See #13149#note-5

#7 - Jan 15, 2019 06:01 PM - Fabio Sinibaldi

Most probably yes. Service's development / testing is still ongoing, so I'm going to run provision frequently in order to perform integration tests / bugfix.

#8 - Jan 15, 2019 06:02 PM - Andrea Dell'Amico

Confirm, same error. You have access to both the servers so you can reinstall when ready.

#9 - Jan 23, 2019 06:32 PM - Andrea Dell'Amico
