

StocksAndFisheriesKB - Feature #16312

GRSF Manage widget: report the name of the editor as tag in the published feed

Mar 20, 2019 02:54 PM - Francesco Mangiacrapa

Status:	Closed	Start date:	Mar 20, 2019
Priority:	Normal	Due date:	
Assignee:	Francesco Mangiacrapa	% Done:	100%
Category:		Estimated time:	0.00 hour
Sprint:	GRSF		
Description			
A new requirement from: https://support.d4science.org/projects/stocksandfisherieskb/wiki/19-03-20-GRSF_tickets			
In particular:			
<i>CNR to make a new ticket for having a new tag in the feeds to report the name of the editor, in example #marinamendes. This will allow to retrieve all modifications made by a specific editor/approver/administrator etc</i>

Dear CNR colleagues,

I see the VRE interface is now reporting the name of the editor under the tag list and in each News feed. See also attached screenshot. Thanks a lot, I think it is very useful.

But to maximize its utilization, is there any way to query for other editors (e.g. #marina_mendez)? The idea is that through that ash tag we can review the activity of each approver/editor.

Yes, there is. You can use the Search News Feed facility in the top bar (see the attached screenshot) to perform your query.. e.g. "marina mendez"
It will return all the News Feed containing the text "marina mendez" (like hashtag or plain text).
More details on search capability could be provided by [@massimiliano.assante@isti.cnr.it](mailto:massimiliano.assante@isti.cnr.it)

Thanks Francesco for the explanation, I'll use that facility.
