Description			
Following a review round performed by @bracken.vanniekerk@fao.org and myself, please find attached the request for merging FIRMS records with RAM and/or FishSource records. You will find 8 worksheets in the attached Excel file, each of them is for a selected FIRMS partner and they all contain a column "ACTION" indicating if the record is to be approved or merged (or no action). Please ignore the 9th worksheet for ICES (in progress), while the IOTC worksheet has been already completed in the ticket #16880. With many thanks

I've made the corresponding approvals and mergings.

Attached you'll find the updated worksheets with the missing info (i.e. the UUIDs and URLs of the approved/merged records). In each worksheet, you'll find another column with label FORTH Actions that describe our activities for each record.

Below you'll find a summary of the activities.

Thanks a lot Yannis, we have checked the work and all seems fine. Let us check a few time series to ensure the merge process did not affect them and we'll revert to you possibly for closing this ticket.

We have checked the 6 merged records and the time series look correct.

We have now the UUIDs for all FIRMS stocks (except those from ICES) which can be submitted to FIRMS partners for their consideration.
