Target version:	ISTI Open Portal Tasks			

Description

The home page contains, right after the search box a box reporting some indicators on number of products, etc.

When clicking on "Research products" the following query is executed

https://openportal.isti.cnr.it/results?qv=

I kindly ask to replace it with the following (where the results are shown from the most recent to the oldest ones)

https://openportal.isti.cnr.it/results?qv=&sort=date&order=1

The same should be done for Open Access products, the following query

https://openportal.isti.cnr.it/results?qf=rights&qv=Open%20Access

should be replaced with

https://openportal.isti.cnr.it/results?qf=rights&qv=Open%20Access&sort=date&order=1

I would also suggest to add a **new indicator about Software**, the query should be something like

https://openportal.isti.cnr.it/results?&qv=&type%5B%5D=Software&sort=date&order=1
