- % Done changed from 0 to 100

- Status changed from In Progress to Feedback

The new (empty) DB is already available at the server db-sfg.d4science.org, the user sfguser can access with the required password.

Can you please provide a valuation of the disk space required to host the database?

#10 - May 12, 2016 06:36 PM - Massimiliano Assante

Thanks Tommaso, I verified the connection to the SimulFishGrowth DB on the indicated host with the password previously communicated by @denispyr@i2s.gr and i could connect successfully.

I'll let I2S answer about the necessary disk space amount expected for this DB.

#11 - May 14, 2016 02:01 PM - Kostas Hirikakis

10GB should be ok

#12 - May 14, 2016 02:09 PM - Kostas Hirikakis

- *Status changed from Feedback to Closed*

Access verified, thanks
