@anna.davies@ices.dk should we create a new VRE or the one of last year (ICES Training Course in the R Environment, https://bluebridge.d4science.org/group/ices_tcre) would be ok?

Either we create one, or reuse TCRE VRE we would need to know soon what are the applications required in the VRE, guess RStudio would be a nice to have for this course.

- Status changed from Planned to In Progress

After discussing internally we think is better to create a brand new VRE for this course, we are going to create the VRE hoping that then the instructors will make use of it.

Hi Anna,

the VRE has been created and we are finalising the necessary tools needed for using R (RStudio). You and your colleagues are the managers. As soon as we finalise this VRE (see Task #9238) I am going to add the 2 instructors and email them about the possibility of its exploitation.
