### #2 - Jun 19, 2017 02:02 PM - Maria Di Girolamo

Please, @[p.koltsida@di.uoa.gr](mailto:p.koltsida@di.uoa.gr) is it really needed that this component using Java7 or the java7 configuration can be removed from the pom.xml (i as suggested by @[gabriele.giammatteo@eng.it](mailto:gabriele.giammatteo@eng.it) presentation during the last TCOM?

@[mariaantonietta.digirolamo@eng.it](mailto:mariaantonietta.digirolamo@eng.it) I m not sure about the status of this component. I had created 3 release tickets and I see only <https://support.d4science.org/issues/8826> in under integration.

The #8826 cannot work without this one and the same is for ticket: <https://support.d4science.org/issues/8825>

Could you please clarify?

**#9 - Jul 17, 2017 12:34 PM - Panagiota Koltsida**

Ok thanks for the info. This was not clear to me as the integration of these components had started before the ETICS break down.

@[mariaantionietta.digirolamo@eng.it](mailto:mariaantionietta.digirolamo@eng.it) does this mean that the production portals are updated? I can see the update on the pre-prodcution, but not on the production ones.

**#15 - Sep 19, 2017 11:40 AM - Maria Di Girolamo**

Today will be the upgrade in production.
