Thank you Maria.

Sure Maria, i'm doing it right now!

However i'm afraid i can't find a proper test plan for geoplora 2.11.0 within the workspace. The last one i can find is for version 2.10.1.1 and was uploaded more than 8 months before. Should i use that one? Am i looking on the wrong folder?

Workspace > VRE Folders > gCube > Shared attachments > Portlet Testing Plans > Material > portlets-user

Please , @[francesco.mangiacrapa@isti.cnr.it](mailto:francesco.mangiacrapa@isti.cnr.it) could you confirm that the test plan is the same used in previous test ?

Thank you

Maria.

Sure Maria. It seems there is an old version of Home Library deployed in preprod (in particular on one of the machine: 'preprod2'). We are fixing the issue with [@valentina.marioli@isti.cnr.it](mailto:valentina.marioli@isti.cnr.it) and we will notify you as you can repeat testing cases

**#23 - Sep 11, 2017 02:44 PM - Francesco Mangiacrapa**

Ok. The issue seems fixed.

Please, Nicolas/Maria, could you try again the steps #15 and #16.1? Let me know if they work. Thx
