- Status changed from Under Integration to Removed

Dear @[lucio.lelii@isti.cnr.it](mailto:lucio.lelii@isti.cnr.it) I've tried to align the version for the smartgear and gcore.

But the local build fro gcore failed , due to the Fatal error compiling: invalid target release: 1.8 (see you at the following link:

[http://etics.esl.eng.it/etics-repository-ws/reports/id/125a5035-a4e4-4469-9a70-3c17d628108d/centos6.9\\_x86\\_64\\_gcc447/-/reports/reportModuleDetail-org.gcube.data-analysis.ecological-engine-org.gcube.data-analysis.ecological-engine.1.11.html](http://etics.esl.eng.it/etics-repository-ws/reports/id/125a5035-a4e4-4469-9a70-3c17d628108d/centos6.9_x86_64_gcc447/-/reports/reportModuleDetail-org.gcube.data-analysis.ecological-engine-org.gcube.data-analysis.ecological-engine.1.11.html).

Now, I've put everything back as before : version 1.10 .

But now we have for the smartgear the version 1.11 and for gCore 1.10 (the same is occurred for ecological-engine-geospatial-extensions.1.5.0 and org.gcube.data-analysis.ecological-engine-smart-executor.1.5.0).

Is it possible in the next release to align Smartgear and gCore release?
